EASTERN SHORE COMMERCIAL SHRIMP TRAWL PERMIT

June 6, 2023

To All Those Interested in the Eastern Shore Experimental Shrimp Trawl Permit,

On July 27, 2021, the Virginia Marine Resources Commission approved Chapter 4 VAC 20-1390-10 et. seq., "Pertaining to Shrimping". This new regulation established a commercial shrimp trawl license, lottery, associated gear, season, and area requirements, along with commercial and recreational shrimp possession limits **in the Virginia Beach area only**.

The Eastern Shore area will remain an experimental fishery in 2023 due to a lack of information to make informed management decisions. **However, the season will start earlier (September 15) than in the past (November 1) and will continue through the end of the year.**

All individuals interest in shrimp trawling on the Eastern Shore must complete the attached Commercial Shrimp Trawl Experimental Permit Form and submitted it to VMRC to be considered for the 2023 fishing year. The agency has received a large number of commercial fishers expressing interest in this fishery. However, no more than twelve (12) permits will be issued for the Eastern Shore Area this year through a lottery process.

Applications are also available online at: https://www.mrc.virginia.gov/notices/2023/2023-06-06-ESShrimpTrawl_Exp-Permit-App2022.pdf

Applications must be received by the Commission no later than 5pm, Friday June 30, 2023.
Send applications to:

Fort Monroe, VA, 23651

Applications may also be placed in the agency drop box located at the main office address shown above.

Information concerning the Eastern Shore Commercial Shrimp Trawl Permit

- 1) All applicants will enter the lottery with a maximum of twelve (12) permits expected.
- 2) **Lottery Process** - Those individuals entering the lottery must possess at minimum a valid Commercial Fisherman Registration License (CFRL).
- 3) The lottery is weighted, meaning applicants meeting the most criteria have a better chance of being selected. The table below shows the lottery criteria:

2023 Eastern Shore Experimental Shrimp Trawl Permit Criteria

#	Criteria	Pts
1	Virginia Resident Y=10 N=0	10
2	Previous Eastern Shore permit holder of a Virginia-issued Special Experimental Permit for shrimp trawl gear (2019 to 2022) Y=10, N=0	10
3	Previous Eastern Shore permit holder with at least 500 lbs of reported shrimp harvest in any given year between 2019 and 2022 Y=10, N=0, NA=0	10
4	Any Commercial fishing violations in past 3 years (2020-2022) Severe-0, Moderate-2, Occasional-5, Minimal-8, None-10	10
5	Compliance Issues with Mandatory Reporting (2020-2022) Frequent-0, Sometimes-6, Never-10	10
6	Resides near fishing area (Eastern Shore) Y=5, N=0	5
7	1000 lbs of reported harvest (all species) over three years (2020-2022) as of 7/1/23. No-0, as helper-5, w/ CFRL-10	10
8	Cooperative and professional with VMRC staff over past 5 years (0 to 10)	10
9	Previously licensed crab dredger with reported landings (2004-2008) 1 pt for each year	5
10	Application (legible, no blanks, on time, with detail on gear and marketing) (0 to 15)	15
11	Vessel port and lands at least 50% of harvest on Eastern Shore Y=5, N=0	5
	Max Points	100

- 4) Selected applicants will be notified no later than **July 17th** and have 7 days to accept the permit. Those that fail to notify staff by the deadline forfeit the permit and another eligible individual will be chosen through the same process.
- 5) **Transfers:** Transfers of any Experimental Shrimp Trawl Permit is prohibited.
- 6) **Agents:** Agents are prohibited. Permittee must be on the boat.
- 7) **Season: September 15** to December 31, but may be extended into January if necessary.
- 8) **Fishing Area:** Coastal waters of the Virginia Atlantic shoreline due east of Cape Charles, VA, out to the 3 nautical mile line, north to the Maryland/Virginia state line, excluding all seaside bays, sounds, and inlets. **Permittees are prohibited from fishing in the Virginia Beach Shrimp Trawl Area** (see attached map) unless properly licensed in accordance with Chapter 4 VAC20-1390-10 et seq., "Pertaining to Shrimp".
- 9) **Time of Day Restriction:** 30 minutes prior to sunrise to 30 minutes after sunset
- 10) **Gear:**
 - a. Vessel should be of appropriate size to fish the required gear.
 - b. A fixed frame net must have an opening no larger than 16 ft. in width and 4 ft. in height (i.e., beam or frame trawl).
 - c. Net mesh must be from 1.5 inches to 2.0 inches stretched mesh.

- d. Net must be equipped with a properly installed National Marine Fisheries Service or North Carolina Division of Marine Fisheries approved by-catch reduction device (BRD).
 - e. Tow duration cannot exceed 30 minutes.
 - f. The Commission shall approve all shrimp trawl gear prior to the final issuance of an Experimental Shrimp Trawl Permit. Contact staff for an inspection.
- 11) Harvest of any Virginia quota-managed species is prohibited (Black Drum, Black Sea Bass, Bluefish, Atlantic Horseshoe Crab, Atlantic Menhaden, Scup, Speckled Trout, Spiny Dogfish, Striped Bass, and Summer Flounder).
 - 12) Permittees shall allow VMRC observer staff onboard fishing trips to collect data on shrimp and bycatch.
 - 13) Permittees are required to contact the MRC staff after each trip to report estimates of shrimp harvest, total bycatch, and any interactions with protected resources. Contact information will be provided.
 - 14) Harvest of all species must be reported to the MRC's Mandatory Harvest Reporting Program by the 5th of each month.

The Virginia Beach Shrimp Trawl Harvest Area will be managed under Chapter 4 VAC 20-1390-10 "Pertaining to Shrimp" et seq., with total licenses remaining at 12 in 2023. The Eastern Shore Area will remain experimental in 2023 administered through Special Experimental Gear Permits with 12 permittees expected.
