**BRIEF PROJECT SUMMARY: (include a detailed description of activity as an attachment)**

CICA members will offer their Boats, time and expertise to be able to take kids fishing who may not have the chance to do this type of sport. They give up their ½ day of charters to open it up for them for the opportunity to experience the fun and sport of fishing. **During the trip we will be sharing our knowledge of fishing, boat safety, navigation and conservation.** The scope is to instill in the younger generation for them to become experienced anglers through our giving of time and knowledge. Introduce them to the VA youth angler program sponsored by the VMRC. We are reaching out through the Chincoteague Elementary School, PTA, local businesses and advertising in the local paper for participants and chaperones.

---

**EXPECTED BENEFITS: (Describe how your project directly benefits the average Virginia recreational angler)**

Reinforces in the children the importance of safe navigation, boat safety, and conservation while being out on a fishing vessel. With this experience they will become acquainted with what to look out for on the navigable waterways.
